## EXPERIENCE

---

### **Inspirato**

**Nov 2021 – Present**

#### **Frontend Engineer**

**Remote**

- Contributing to the transition to a Next.js and TypeScript platform for enhancing performance and adopting current web standards
- Optimized our trip results page using virtualization and lazy loading, cutting load time by 60% and markedly improving user experience
- Spearheaded the development of an intuitive, responsive web interface for exploring travel destinations, resulting in a 25% increase in user engagement

### **BlackRock**

**Jul 2021 – Oct 2021**

#### **Application Engineer**

**New York, NY**

- Architected, developed, deployed, and maintained fast and scalable web frontends that drive the investment management process for our clients
- Partnered closely with API teams and product management teams to enhance the product offering and drive up user engagement and adoption
- Utilized Redux to manage application state along with Redux-Saga to handle asynchronous side effects efficiently

### **YieldX**

**Jan 2020 – Jan 2021**

#### **Frontend Engineer**

**Remote**

- Developed reusable components to standardize our app's architecture
- Researched principles of accessibility to implement inclusive interfaces
- Built a static analysis tool that enforces coding standards to contribute to an increase in scalability and decrease the potential for bugs

### **Genius Plaza**

**Oct 2019 – Jan 2020**

#### **Frontend Developer**

**Miami, FL**

- Collaborated with the design team to build a design system and lead the creation of a library of 25 components
- Converted to React the legacy source code of one of our apps in production, resulting in increased maintainability and reduced run time performance

## EDUCATION

---

### **Hack Reactor**

**Oct 2017 – Feb 2018**

#### **Software Engineer Immersive Program**

**Los Angeles, CA**

Binghamton University

**Aug 2010 – May 2014**

*B.S. Management*

*Binghamton, NY*

## SKILLS

---

HTML – CSS – JavaScript – TypeScript – React – Next.js – Tailwind – Jest – Playwright – tRPC – Prisma – Node – UI/UX – Astro – Angular – Vite
